

COMMUNITY CALL-OUT

The *Timber Village Museum* is currently undergoing some changes to its display space and is currently looking for some artifacts to put on display until the end of next summer (but items loaned may be retrieved at any time).

This year the exhibit is titled “A Walk Down Memory Lane” as we feature diverse and significant moments and stories in the history of Mississauga First Nation/Blind River Area. Included are artifacts that have not been seen in many years alongside images from our collection and selected stories from the “living memory project”.

The goal of this exhibit is to evoke memories through objects, photos, and stories while fostering the sense of community and coming together that has been hindered throughout the pandemic. This could include but is not limited to:

- Outfits or regalia
- Instrument or Drum
- Photographs
- Stories on the early life in the region, reclaiming of cultural, self-expression, or local centered memories.
