Sheila Boyer
For
Chief**

Ahnii Boozhoo

My name is Sheila Boyer and I am running for the Chief of Mississauga First Nation position here in Mississauga. I want to focus on the issues and concerns that we have had here for some time.

I would like to be a more involved leader and be present for the members when needed. I would like to see Chief and council meetings be more open to all members on and off reserve; such as having Lives on Facebook so that all members can easily access and be able to ask questions if wanted and be involved with any big decisions involving everyone as a whole. We need to start having our elders and youth more involved as well as all members.

I feel that there needs to be more equality on and off reserve. Everyone's voice deserves to be heard.

I would like to have regular input from the community as well as off reserve members on how we can shape our future together. I want to know from our members what they would like to see such as >culture and traditions, education-trades, etc...so that we can work together on building a brighter future.

I want to create more jobs for members rather than hiring off reserve. We can have educators come to us, rather than send members off reserve. So that we can have our members learn to build houses, do plumbing, electrical etc...We can create new developments that will offer more opportunities for members and will contribute back to needs of our on and off reserve members. Such as create food systems(hydroponics) to provide healthy non chemical food for our community, start a bison farm to help feed our people healthy meat, also would like to see us create a hemp industry to help with health concerns and prevention as well as create renewable resources to build houses etc... there is endless resources that can be used from hemp. These projects would provide several jobs for our members.

We need to give back to our members more and help when they are in need.

I feel it is important that we address the trauma and addictions that have impacted our daily lives, everyone deserves the opportunity to access resources needed to help with these issues.

We need to address the health concerns related to Cameco that are affecting our families and take stand to protect our members, lands, resources for generations to come.

We have rights and we need to start accessing them.

I want to sincerely express that I'm not running for my own needs, I truly believe we need a leader that will speak on behalf of All members and do what is right.

Miigwech for your time and consideration. If you have any questions or concerns feel free to contact me at sheilaboyer79@gmail.com
